N/A

At Intellectual Point, we are dedicated to empowering busy professionals with comprehensive, hands-on learning experiences that equip them with the necessary skills and certifications to thrive in the rapidly evolving IT industry. Our commitment to innovation, integrity, and high performance drives us to provide state-of-the-art training solutions tailored to meet the diverse needs of individuals and organizations.

At Intellectual Point, our vision is to be a leading force in IT training, consulting, and workforce development.

Core Values

- **Deliver Comprehensive Programs:** Offer flexible, rigorous training programs that enhance practical skills and lead to recognized certifications.
- **Promote Student Success:** Implement strategies to achieve high graduation and job placement rates, ensuring students meet their professional goals.
- **Flexible Learning Solutions:** Provide a range of learning options, including Instructor-Led On-site and Virtual Training, Private Group sessions, and On-Demand Training, to accommodate diverse schedules.
- **Career Development Support:** Offer career advancement resources and professional mentoring to guide students in achieving strategic career objectives.
- **Ensure Program Accessibility:** Maintain approvals to support diverse learner populations.
- **Commitment to Continuous Improvement:** Engage in ongoing evaluation and refinement of programs and services to foster a culture of responsibility and excellence.

Complaints & Reports of Incidents

<https://caps.intellectualpoint.com/student-complaint>

Student Complaint Policy

Students are encouraged to make every effort to resolve any complaints or grievances through discussions directly with the person involved. If unable to resolve in that matter, the student can file a complaint through the Intellectual Point's leadership team by completing the following process:

1. Students should immediately report to faculty all complaints/grievances that arose while in class. If a verbal complaint is given, written follow-up is required for documentation and recording purposes. Written complaints/grievances should include the description of the complaint, as well as the date or dates the issue arose, and parties involved, as applicable.
2. Written grievances should be emailed to Intellectual Point via email at complaints@intellectualpoint.com or submitted via the complaint form. If one does not have access to the internet, a written grievance can be submitted to the school at: Intellectual Point; Attn: Compliance; 46175 Westlake Drive, Suite 250, Sterling, VA 20165. Students may also call the Complaints phone line at (571)-200-6924.
3. While someone from Senior or Executive Leadership may contact you regarding the details of the complaint, the final decision regarding any action taken by the school will be determined at the discretion of the Chief Executive Officer. The student has a one-time right to appeal in writing with the results of the review and documentation regarding the appeal within 3 business days of the notification. Once the review is completed, the institution will respond accordingly. That decision is final. Note: All Complaints are reviewed and processed independently and addressed on a case-by-case basis.

At no time throughout the complaint process, including the additional steps below, will Intellectual Point reveal the identity of any student who files a complaint against the school regarding unfair treatment or adverse action.
